Re: *C&H Power Line Construction v. Enterprise Products Operating, LP, et al.*
Washington County Case No.: CJ 2010-446

Dear Ted and Marquette:

Now that the dust has settled following our recent trial, I want to make sure you know how much we appreciate your assistance with the case. Both of you are obviously very talented trial lawyers, and the outstanding result we got could not have been achieved without your involvement. Our clients have told us more than once that bringing you into the case was the best decision we made on it. We made such a good team together we need to find a way to do it again.

We have made sure that all of our lawyers both here and in our Oklahoma City office know who you are and, not only what good lawyers, but how good you are to work with.

The fact that our verdict was the largest ever in Washington County, Oklahoma, has not gone unnoticed by the Oklahoma bar, which could lead to other opportunities for us. If that should happen, Ted Lyon & Associates will be the very first call we make. Thanks again. Let's stay in touch.

Sincerely,

M. David Riggs
